

TESSERENT

ASX ANNOUNCEMENT

Melbourne — 4 March 2019

TESSERENT SIGNS PARTNERSHIP AGREEMENT WITH NUCLEUS CYBER TO LICENSE ITS AI-DRIVEN DATA SECURITY SOLUTIONS

Tesseract Limited (ASX:TNT, Tesseract) is pleased to announce it has signed a partnership agreement with Nucleus Cyber, the AI-driven data security company for the intelligent workplace, to distribute and resell its NC Protect™ solution for AI-driven data discovery, inside threat protection and regulatory compliance to customers and partners in Australia, New Zealand and Asia.

“Tesseract’s focus on delivering comprehensive security to its customer and high level of technical experience makes them the ideal partner to expand our customer footprint in Asia Pacific, which includes Energy Safe Victoria and several Australian government departments,” **Kurt Mueffelmann, CEO of Nucleus Cyber**, stated. “NC Protect allows Tesseract to expand its portfolio with an AI-driven data security solution to safeguard their customer’s most sensitive and confidential information from internal threats including cyber espionage, misuse by over privileged users and human error.”

NC Protect offers a centralized and cost-effective AI-driven data security solution to ensure compliance with regulatory and corporate policies and protect against breaches to mitigate risk. It is both content and context aware to automatically find, classify and secure unstructured data on-premises, in the cloud and in hybrid environments.

“Internal and external collaboration continues to evolve rapidly with tools such as Office365, Google Suite and an ever-growing number of social media platforms. For an organization to be mature and compliant in their collaboration, secure access controls are vital to keeping sensitive company IP and data secured. Our partnership with Nucleus Cyber ensures Tesseract can offer a truly secure and intelligent workplace for leading organizations utilizing advanced and ever-changing collaboration platforms.” said **Julian Challingsworth, CEO, Tesseract**.

ABOUT NUCLEUS CYBER

Nucleus Cyber is the AI-driven security solution for the intelligent workplace providing dynamic, granular data security that leverages existing infrastructure investments. The NC Protect platform (formerly Security Sheriff) dynamically adjusts file security based on real-time comparison of user context and file content to enforce data governance policies for more secure collaboration. It minimizes data loss and misuse risk for a wide range of digital environments including SharePoint, Office 365, file shares, enterprise social systems and the cloud.
